# ERIC J. MORGAN

## Education

2011–2015	Dr. rer. nat.   Max Planck Institute for Biogeochemistry / University of Kiel
	<ul style="list-style-type: none"><li>• Subject: Biogeochemistry (<i>magna cum laude</i>)</li><li>• Advisors: Dr. Jošt V. Lavrič and Prof. Dr. Martin Heimann</li><li>• PhD work was completed as a student in the International Max Planck Research School for Global Biogeochemical Cycles, housed at the MPI for Biogeochemistry, degree conferred by Christian-Albrechts-Universität zu Kiel</li><li>• Thesis title: <i>Continuous Measurements of Greenhouse Gases and Atmospheric Oxygen in the Namib Desert</i></li></ul>
2005–2007	M.S.   University of Rhode Island, Graduate School of Oceanography
	<ul style="list-style-type: none"><li>• Subject: Oceanography</li><li>• Advisor: Dr. Rainer Lohmann</li><li>• Thesis title: <i>Passive Sampling of PCB Activities in Narragansett Bay: Bioaccumulation and Exchange Between Reservoirs</i></li></ul>
2001–2005	B.A.   American University
	<ul style="list-style-type: none"><li>• Subject: Environmental Science (<i>magna cum laude</i>)</li><li>• Advisor: Dr. Stephen MacAvoy</li><li>• Awards: <i>Phi Beta Kappa</i>, Dean's List (for high marks) all semesters, Dean's Scholarship</li></ul>
2001–2005	B.A.   American University ( <i>magna cum laude</i> )
	<ul style="list-style-type: none"><li>• Subject: Visual Media</li><li>• Studied film, photography, graphic design, and motion graphics, with a focus on documentary film</li></ul>

## Employment

2015–present	Postdoctoral Scholar — Scripps Institution of Oceanography
	<ul style="list-style-type: none"><li>• La Jolla, CA, USA</li><li>• Supervisor: Dr. Ralph Keeling</li><li>• Conducting scientific research on the global carbon cycle, using atmospheric CO<sub>2</sub>, δ(O<sub>2</sub>/N<sub>2</sub>), δ(Ar/N<sub>2</sub>), and stable isotopes of CO<sub>2</sub></li></ul>
2010–2011	Senior Research Technician — Boston University
	<ul style="list-style-type: none"><li>• Boston, MA, USA</li><li>• Supervisor: Dr. Robinson Fulweiler</li><li>• Managed coastal biogeochemistry lab; technician for GC–ECD/FID; supervised student researchers; assisted with nutrient, elemental (CHN), and sediment chlorophyll analysis; field work</li></ul>

2008–2009	Adjunct Faculty Lecturer — Simmons University <ul style="list-style-type: none"> <li>• Boston, MA, USA</li> <li>• Supervisor: Dr. Michael Berger</li> <li>• Taught laboratory section of general, organic, and analytical chemistry</li> <li>• Duties included lecturing, grading, preparing materials, and supervising student work</li> </ul>
2007–2008	Production Assistant/Intern — 42 Degrees North Films <ul style="list-style-type: none"> <li>• Boston, MA, USA</li> <li>• Story development and preliminary editing on ethnographic documentary, administrative duties.</li> </ul>
2006–2008	Research Technician — University of Rhode Island <ul style="list-style-type: none"> <li>• Narragansett, RI, USA</li> <li>• Supervisor: Dr. Rainer Lohmann</li> <li>• Managed laboratory specializing in analysis for persistent organic pollutants (PCBs, PAHs, PBDEs, Dioxins)</li> <li>• Primary technician responsible for a GC–MS (gas chromatograph–mass spectrometer)</li> </ul>
2006–2008	Research Technician — University of Rhode Island <ul style="list-style-type: none"> <li>• Narragansett, RI, USA</li> <li>• Ran and maintained the URI/GSO CHN laboratory</li> </ul>
2004–2005	Lab Assistant — US Geological Survey <ul style="list-style-type: none"> <li>• Reston, VA, USA</li> <li>• Lab Assistant to Nancy Simon, USGS Biogeochemistry Lab. Sediment sample preparation for geochemical analysis, cleaning glassware, general assistance</li> </ul>
2004–2005	General Education Teaching Assistant — American University <ul style="list-style-type: none"> <li>• Washington, DC, USA</li> <li>• Assisted Dr. Kiho Kim with undergraduate Oceanography Course. Graded papers and exams, ran study groups</li> </ul>

## Field Experience

### *Marine*

2013–2014	Visiting Scientist, <i>FS Meteor</i> , Cruises M99–M104. Installed automated system for continuous atmospheric measurements of CO <sub>2</sub> and CH <sub>4</sub> , and discreet flask samples during a series of cruises around southern Africa. Work on instrument system was done in port only.
2006–2007	Participated in weekly maintenance of sonde arrays in Narragansett Bay (RI, United States), deploying passive samplers for persistent organic pollutants. Work was conducted with small boats.
	Participated in weekly fish trawls on the <i>R/V Cap'n Bert</i> , assisting with sorting, counting, and identifying demersal fish in Narragansett Bay and Rhode Island Sound. Fish were collected and analyzed as part of a bioaccumulation study.
	Chief Scientist, <i>R/V Endeavor</i> , Cruise EN–421. Sampled air and water for persistent organic pollutants during transect of the Atlantic Ocean (Crete to United States)

## *Terrestrial*

- 2012–2014      Participated in installation and subsequent maintenance visits to the Namib Desert Atmospheric Observatory in Gobabeb, Namibia, usually in the capacity of lead scientist.
- 2010–2011      Sediment coring and water sampling in salt marshes in NE United States. Subsequent analysis included greenhouse gas fluxes, inorganic nutrients, carbon content, chlorophyll.

## *Airborne*

- 2016–2018      Participated in the NASA/NOAA/NSF Atmospheric Tomography Mission 1–4 (ATom1–4), operating the Medusa flask sampler and Airborne Oxygen Instrument (AO2) on a DC-8. Flights were from the Arctic south over the Pacific Ocean to the Antarctic, then north over the Atlantic Ocean back up to the Arctic.
- 2016              Participated in the NCAR/RAF/NSF O<sub>2</sub>/N<sub>2</sub> Ratio and CO<sub>2</sub> Airborne Southern Ocean (ORCAS) project, operating the Medusa flask sampler and Airborne Oxygen Instrument (AO2) on a Gulfstream V. Flights were based out of Punta Arenas, Chile, and focused on the region surrounding the Drake Passage.
- 2015              Participated in the NCAR/RAF Airborne Research Instrumentation Testing Opportunity (ARISTO) flight test program, operating the Medusa flask sampler and assisting with the Airborne Oxygen Instrument (AO2) over the course of 4 test flights with a C-130.
